

Experienced technicians
and engineers who *get it*.
To grow, change is essential.
We understand organizations'
evolving IT, data security
and networking needs.
**NTI provides affordable,
flexible, smart solutions.**

"I don't tell you enough how wonderful it is to work with NTI. You routinely look for ways to improve APHL's infrastructure, as well as save us money. I hold NTI personally responsible for the dramatic improvement in the performance of APHL's network, and the improvement in the perception of IT."

—Carol J. Clark, MS, CPA, CEO
Association of Public Health Laboratories

THE NTI ADVANTAGE

Once we assess your network, support, data security or email defense needs, NTI will develop a custom solution that's right for you.

Our team features networking engineers, desktop software technicians, and other highly-skilled IT professionals. As a qualified Small Business Specialist, and a Microsoft

Microsoft
CERTIFIED
Partner

Certified Partner, NTI can automate processes that improve efficiency and your bottom line.

Our areas of expertise:

- » **Network & Systems Integration**
NTI manages small-to-large scale IT projects, as well as continuous network management.
- » **Offsite & Onsite Helpdesk Support**
We assist with projects and offer ongoing support.
- » **GSA Schedule**
NTI is a Small Business Enterprise that holds a GSA schedule, supporting federal, state and local government and government-contracted clients.
- » **Secure Online Backups**
NTI configures and manages clients' critical information. We're a certified MozyPro partner.
- » **Email Filtering & Spam Control**
NTI has comprehensive anti-spam, anti-worm and anti-virus solutions, driven by MX Logic.
